(Name and telephone number, including area code, of the person to
contact in connection with this report.)

Check the appropriate box to indicate the rule pursuant to which this form is being filed, and provide the period to which the information in this form applies:

- Rule 13p-1 under the Securities Exchange Act (17 CFR 240.13p-1) for the reporting period from January 1 to December 31, 2025.

Section 1 – Conflict Minerals Disclosure

Item 1.01 Conflict Minerals Disclosure and Report

Colgate-Palmolive Company (the “Company”) has filed this Specialized Disclosure Form (Form SD) (including the Conflict Minerals Report) for the year ended December 31, 2025 to comply with Rule 13p-1 under the Securities Exchange Act of 1934 relating to “conflict minerals.” This report is also available in the “Investors” section of the Company’s website at <https://www.colgatepalmolive.com>. The reference to the Company’s website is provided for convenience only, and its contents are not incorporated by reference into this Specialized Disclosure Form (Form SD) nor deemed filed with the U.S. Securities and Exchange Commission.

Item 1.02 Exhibit

The Company’s Conflict Minerals Report for the year ended December 31, 2025 is filed as Exhibit 1.01 of this Specialized Disclosure Form (Form SD).

Section 2 – Exhibits

Item 2.01 Exhibits

Exhibit 1.01 [Conflict Minerals Report of Colgate-Palmolive Company, as required by Items 1.01 and 1.02 of this Specialized Disclosure Form \(Form SD\).](#)

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

COLGATE-PALMOLIVE COMPANY

Date: June 1, 2026

By: /s/ Stanley J. Sutula III

Name: Stanley J. Sutula III

Title: Chief Financial Officer

Colgate-Palmolive Company
Conflict Minerals Report
for the Year Ended December 31, 2025

This Conflict Minerals Report for the year ended December 31, 2025 is presented to comply with Rule 13p-1 under the Securities Exchange Act of 1934 relating to “conflict minerals” (the “Rule”). For purposes of the Rule, “conflict minerals” are limited to cassiterite, columbite-tantalite, wolframite and gold, including their derivatives, which are limited to tin, tantalum and tungsten.

Introduction

Colgate-Palmolive Company (the “Company”) is a caring, innovative growth company reimagining a healthier future for all people, their pets and our planet. The Company’s products are marketed in over 200 countries and territories throughout the world. As a result of the Company’s global operations, its supply chain sources materials, finished products and services globally and from a large number of suppliers. The Company does not typically source any minerals, including conflict minerals, directly from mines, smelters or refiners and is several supply chain levels removed from these market activities.

The Company manufactures and markets a wide array of oral care, personal care, home care and pet nutrition products. As required by the Rule, the Company has conducted a review of its products to determine whether they contain conflict minerals that are necessary to their functionality or production. Only a small number of the Company’s products were determined to contain necessary conflict minerals. The Company determined that necessary conflict minerals were contained in components of its electric and battery toothbrushes and certain oral care devices.

Reasonable Country of Origin Inquiry

As required by the Rule, the Company conducted a reasonable country of origin inquiry into its supply chain to determine whether any of the conflict minerals contained in its products originated in the Democratic Republic of Congo or adjoining countries (collectively, the “Covered Countries”).

Supplier Survey

The Company identified its materials and products that contain necessary conflict minerals by reviewing its reasonable country of origin inquiry survey results from the prior year, searching its product formula database and interviewing internal product ingredient experts. The Company requested that each of the suppliers of these materials and/or products complete the Conflict Minerals Reporting Template developed by the Responsible Minerals Initiative (“RMI”). Responses were reviewed for consistency and completeness, and follow-up inquiries were conducted. The results of the supplier survey were shared with members of senior management.

Results of Survey

The Company received responses from 100% of the surveyed suppliers. A majority of the surveyed suppliers indicated that the smelters or refiners in their supply chains source conflict minerals from the Covered Countries. As of May 26, 2026, sixty-seven (67%) of the smelters identified by the surveyed suppliers were listed as (i) “conformant” with RMI’s Responsible Minerals Assurance Process (“RMAP”) assessment protocols (meaning they either had a currently valid audit or a re-audit in progress or, with respect to certain gold smelters, had successfully completed a cross-recognized assessment with the London Bullion Market Association (“LBMA”) and/or Responsible Jewelry Council (“RJC”)), or (ii) “active” (meaning they are participating in the RMAP by agreeing to complete the audit process). Thirty-three percent (33%) of the smelters and refiners identified by the surveyed suppliers were not listed as “conformant” or “active” by RMI; all of these smelters and refiners were provided by one supplier (“Supplier 1”) and one of these was also provided by two other suppliers. In addition, Supplier 1 and one of the two suppliers were unable to identify all of the smelters and refiners supplying conflict minerals to their supply chains, so there may be other non-identified smelters and refiners in the Company’s supply chain. Supplier 1 has publicly indicated that none of the smelters and refiners identified in its supply chain is known by Supplier 1 to be sourcing conflict minerals that directly or indirectly finance or benefit armed groups in the Covered Countries. The Company is engaging with its suppliers about the smelter(s) in their supply chains that are not listed as “conformant” or “active” by RMI. One of the Company’s other suppliers indicated that 100% of the conflict minerals necessary to the functionality or production of its products originated from recycled or scrap sources.

Due Diligence Process

The Company has exercised due diligence on its supply chain, with the goal of determining that the necessary conflict minerals contained in its products did not directly or indirectly finance or benefit armed groups in the Covered Countries. The Company designed its due diligence process to comply in all substantive respects to the framework set forth in the Organization for Economic Cooperation and Development Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-Risk Areas (the “OECD Framework”).

The Company performed the following due diligence steps:

(1) Establish strong company management systems

- The Company has adopted a conflict minerals policy, which includes information on how to contact the Company for further information and/or to report concerns. The policy is available in the “Sustainability” section of the Company’s website at <https://www.colgatepalmolive.com>.
- The Company has incorporated its conflict minerals policy into its Third Party Code of Conduct, which conveys the Company’s expectations regarding ethical conduct to third parties with whom the Company does business.
- The Company has established a team of employees from its procurement, legal and sustainability functions to design and implement its conflict minerals compliance efforts with senior executive level support and oversight.
- The Company has provided background information and training on the Rule to employees involved in its conflict minerals compliance efforts.
- The Company requested relevant suppliers to identify the smelters and refiners of the conflict minerals in their materials or products.

(2) Identify and assess risks in the supply chain

- As described above under “Reasonable Country of Origin Inquiry,” in order to determine the mine or location of origin of the conflict minerals in the Company’s supply chain with the greatest possible specificity, the Company requested its relevant suppliers to complete the Conflict Minerals Reporting Template developed by RMI.
- The Company reviewed the supplier responses for inconsistent and/or incomplete responses that might indicate a potential risk.
- The Company compared the smelters and refiners identified by its suppliers against the RMAP’s lists of conformant and active smelters and refiners.

(3) Design and implement a strategy to respond to identified risks

The Company implemented a risk management plan designed to identify, monitor and mitigate identified risks. Elements of the plan included:

- informing relevant suppliers, including new suppliers during the onboarding process, about the Company’s conflict minerals policy;
- sending corrective action follow-up notices to suppliers who provided incomplete and/or inconsistent responses to the Company’s information requests;
- encouraging suppliers who provided inconsistent or incomplete responses to improve their due diligence practices in accordance with the Company’s conflict minerals policy; and
- providing updates to senior management in the finance, supply chain and legal functions.

(4) Carry out independent third-party audit of supply chain due diligence at identified points in the supply chain

The Company does not conduct audits of smelters or refiners. The Company relies on the RMAP to audit smelters and refiners that may be in the Company’s supply chain. If a surveyed supplier identifies a smelter that is not listed as conformant or active with RMAP’s assessment protocols, the Company follows up with the supplier for additional information and further action.

(5) Report on supply chain due diligence

This Conflict Minerals Report and the Company's Specialized Disclosure Report (Form SD) are available in the "Investors" section of the Company's website at <https://www.colgatepalmolive.com>. The reference to the Company's website is provided for convenience only, and its contents are not incorporated by reference into this Conflict Minerals Report nor deemed filed with the U.S. Securities and Exchange Commission (the "SEC").

Smelters and Refiners

Attached as an Annex to this Conflict Minerals Report is an aggregated list of the smelters and refiners reported to the Company by its suppliers of conflict minerals. Some of the suppliers that provided this information did so on a company or division level, and not in relation to specific products. Therefore, the Company is unable to determine whether many of these smelters and refiners are actually in the Company's supply chain. In addition, as noted above, because two of the surveyed suppliers were unable to identify all of the smelters and refiners in their supply chains, there may be other non-identified smelters or refiners in the Company's supply chain.

Ongoing Risk Mitigation Efforts

The Company has implemented an ongoing risk mitigation plan that is intended to strengthen its supply chain due diligence capability and traceability with respect to conflict minerals and reduce the risk that the sourcing of any conflict minerals benefits armed groups in the Covered Countries. The Company's ongoing risk mitigation efforts include:

- seeking to incorporate supplier contract language and/or terms and conditions that require relevant suppliers to cooperate with the Company's conflict minerals compliance efforts;
- continuing to engage with the Company's suppliers, including new suppliers, to develop and enhance their due diligence processes; and
- sharing the Company's conflict minerals policy with suppliers.

Cautionary Statement on Forward-Looking Statements

This Conflict Minerals Report, including the description of the Company's ongoing risk mitigation efforts, contains forward-looking statements (as such term is defined in the Private Securities Litigation Reform Act of 1995 or by the SEC in its rules, regulations and releases). These statements are made on the basis of the Company's views and expectations as of this time and the Company undertakes no obligation to update these statements whether as a result of new information, future events or otherwise, except as required by law or by the rules and regulations of the SEC. The Company cautions investors that such forward-looking statements are not guarantees of future performance and that actual events or results may differ materially from those statements due to factors such as the implementation of satisfactory traceability and other compliance measures by the Company's direct and indirect suppliers on a timely basis or at all, whether smelters and refiners and other market participants responsibly source conflict minerals, internal and external resource restraints, and political and regulatory developments, whether in the Covered Countries, the United States or elsewhere. For a description of certain factors that could cause the Company's future events or results to differ materially from those expressed in any forward-looking statement, please refer to the Company's filings with the SEC, including, without limitation, information under captions "Risk Factors" and "Cautionary Statement on Forward-Looking Statements" included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2025 and subsequent filings with the SEC.
